View and Modify Applications The Applications function has three tabs that allow users to perform various actions. ALL tab View details of applications o Edit details of applications o Process applications o Notify households of their application status o More Actions Mark as pending Refuse benefits Delete Add to verification Application image Export History of applications PENDING APPLICATIONS tab View application details Delete applications History of applications PENDING STUDENTS tab Search for students Edit details View match details ALL tab The user can view all applications.

1. On the Applications page, ensure that the ALL tab is selected
2. Select the Academic Year, Site Code/Site Name, Grade, Entry Method, Status, and Benefits
3. Click the APPLY button Results display below. Action(s) for Applications: View and History View Application Details
4. Click the View (Paper) icon for the desired application The Application Details page displays.

Page 2

2

Application Details page a. View the Application Number and Status b. View the Eligibility c. PROCESS APPLICATION – Use this button to process or reprocess the application. A comment is required to save if the application is currently in Pending or Processed Status. The Status of the application determines if this button displays. d. NOTIFY – Use this button to notify the student/household regarding their application Status. e. MORE ACTIONS – Click this button to select additional application actions. See the MORE ACTIONS section below for

details. f. View the Received Date and Language. Click the Edit (Pencil) icon to edit this information. When a corresponding language template is configured, notifications are sent in the language selection. g. Section Links – Clicking on one of the section names will navigate you to that section. See the information below for section details.

The Application Details page sections are Summary – Displays the Latest Application Action, Application Status, Turnaround Time, and Language, as well as the Timeline Status. Students – Displays information regarding the student(s) on the application. Household Members – Displays all household members included on the application along with applicable income. Contact Information – While optional on the application, this section displays contact information for the applicant. Details – Displays other benefits and demographic information. Notifications – Displays the history of notifications sent tied to this application. Comments – Displays reference comments added to the application and the option to add comments when necessary.

Page 3

3

Documents – Displays supporting documents added to the application with the option to add additional documents when necessary. Application Status History – Displays the history of changes applied to the application's status. Adult Signature / SSN – Displays the social security number associated with the application as well as if the application signature was confirmed. MORE ACTIONS button The actions that display are dependent on the status of the application. MARK AS PENDING – Once changes are made to the application, this option can be used to mark the application as pending. REFUSE BENEFITS – Use this option to refuse benefits. The Eligibility determination and the basis for that eligibility appear. Select a Result, Start Date, and enter a comment to refuse benefits. DELETE – Use this option to delete the application. If any students are on this application, this action will return them to their previous eligibility. Select a Reason and add a comment to delete the application. ADD TO VERIFICATION – Use this option to add this application to the verification process. APPLICATION IMAGE – View a preview of the submitted application with options to export and print. EXPORT – Export the application as a PDF to send or print as needed. The user may Generate Applications with or without Details, Eligibility, Comments, or History. History

1. Click the History (Clock) icon for the desired application The Application History slide deck displays.
2. Click a row in the table, and information displays in the Changed Value(s) section A key is available, notating the Old and New changed value(s).

FIND MATCHES button To find matches for the applications available within the tab

1. Click the FIND MATCHES button A green checkmark displays in the Matched Status column if the system finds matches. Action(s) for Pending Students: Search, Edit, View Search for Students Search for students to link to the application.
2. Click the Search (Magnifying Glass) icon for the desired student The Search & Match Student slide deck displays.
3. Enter a student's name into the Search Students field to generate the results
4. Click the SELECT STUDENT button on the row of the desired student The Compare Details section displays.
5. Compare the Application Details to the Matched Student
6. Click the MATCH button at the bottom right corner to update the student's information A successful match message displays. A green checkmark displays in the Matched Status column on the Applications page. Edit Details
7. Click the Edit (Pencil) icon for the desired student The Edit slide deck displays.
8. Update the student's details as needed
9. Click the SAVE button in the bottom right corner to update the student's details A confirmation message displays. You are returned to the PENDING STUDENTS tab. View Match Details A View icon displays for a pending student once at least one potential match has been identified.

10. Click the View (Paper) icon for the desired student The Match Details slide deck displays.
11. Compare the Application Details to the Matched Student(s). The Match Details screen shows each potential student's Status (Active/Inactive) and current Eligibility with Basis (for example, "Free (DC MEDICAID)").
12. If multiple potential students are shown, you must select one using the Match button before continuing. Click the X to close the slide deck and return to the PENDING STUDENTS tab.
